

HANDOUTS ARE A WASTE OF PAPER!

For years handouts have been used to spread a public message and to get an idea out to the public. We're tired of it! The act of handing out handouts and pamphlets is a complete and utter waste of paper. Studies show that at least 50% of people do not read even one line on the paper, and instead drop it on the ground once they are a far enough distance away.

Not only that, but pamphlets are a way of pushing an idea onto people, who may not want it. You should not be able to push people to agree with you through the use of handouts.

We would like to outlaw the use of handouts, pamphlets and any other paper based advertising system. WE HOPE YOU AGREE WITH US! Only through setting down laws will this terrible issue be stopped. We want change.

OFTEN HANDOUTS DO NOT EVEN FILL THE WHOLE PAGE. INSTEAD THEY WRITE IN LARGE FONTS TO GET YOUR ATTENTION!!!
